

CHIPA - Smart Urban Share 🚗💚

****Chipa**** is a prototype ride-sharing platform for urban areas, designed to connect people through smart, green, community-based transport.

🚀 Features

- Dual role: Passenger and Driver dashboards
- Ride request/accept system
- Fare estimates + simulated payments (M-PESA, Cash)
- Map previews
- Swahili/English language toggle
- Clean, responsive UI using TailwindCSS

📢 Call for Partners

We're looking for:

- 🛠️ Developers to join as co-builders
- 💼 Investors for early-stage funding
- 🌍 Advocates to bring smart ride-sharing to their city
