

Chipa

Smart urban share

Mission

To make urban transportation smarter, greener, and more community-driven by enabling affordable ride-sharing for everyone.

Vision

A connected society where urban dwellers seamlessly share transport resources, reduce emissions, and build real-world community networks.

Key Features

- Dual Platform: Passenger & Driver modes
- Map View: Simulated live ride tracking
- Responsive UI: Optimized for mobile
- Payment Simulation: M-PESA and Cash options
- Language Toggle: English / Swahili
- Ride Request + Accept logic

Market Opportunity

Chipa addresses urban transportation gaps by offering shared rides that are affordable, accessible, and community-centric - especially in growing cities like Nairobi.
